

How to Rid Ourselves of Plastic Pollution

Maria Sabrina Auclair is a Colombia native living in Massachusetts with her husband and 2 furry rescued princesses and has a mission to show that being sustainable and more planet friendly is something everyone can achieve, no matter what. She saw a need for plastic-free/low-waste products and refills in the local market and decided to step in and founded Unpacked Living, Inc. in 2019 as an online e-commerce.

Today she has storefronts in Beverly & Danvers and is founder of the local Facebook group Zero Waste Massachusetts as a hub of information for people who want to learn how to reduce waste and live plastic-free.

**Monday, December 12th 6:30 pm
In Person & Online**

"Plastic shouldn't have become part of our everyday lives.

We need to understand that we can't recycle our way out of the current state of the planet. As consumers we need to try hard to kick the plastic habit out of our lives and choose products that will be part of earth's natural cycle"
-Sabrina Auclair

Join Maria Sabrina Auclair as she discusses how she helps everyday people take responsibility for the waste they produce, the products they use, and the impact they have on themselves and the environment, that can bring a change to the overwhelming pollution we have created.

In Person:
101 Forest Avenue
Swampscott, MA 01907

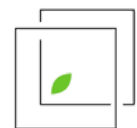

Online: Live on Facebook
